DATA ANALYST (OPERATIONS & SALES)

Spark ATM Systems is an independent ATM deployer operating in South Africa, forming part of a global group of companies. The company is South Africa's premier independent ATM deployer, selling and installing convenience ATM's into retail, petroleum, leisure and hospitality locations countrywide.

The company seeks a skilled and qualified Data Analyst to join their dynamic team. Based in Paarden Eiland, the successful candidate will form an integral link between business strategy and performance delivery, where the individual will be responsible to deliver statistics-based solutions across our base of fully-cashed and self-cashed ATM sites and ensure that there is efficient use of company resources.

RESPONSIBILITIES:

- Monitor and review recent ATM installations and existing site performance to measure the company's success in its deployment strategy
- Implement and maintain ATM sales and performance models, build reporting dashboards and report on key control indices
- Monitor new or special project performance against pre-defined criteria and advise corrective steps based on statistical evidence
- Benchmark ATM performance against financial and operational key metrics, looking for efficiencies and improvements
- Optimize Sales / Operations supply chain processes and evaluate productivity
- Reconcile field activity and improve route planning and route efficiency
- Operate ATM performance gap analysis tools, advising on current ATM performance vs desired ATM performance
- Design, implement and collate ATM performance data to determine the effectiveness of optimization strategies
- Analyse and optimize cash forecasting and float management per ATM
- Improve profitability through EBITA analysis per ATM
- Take ownership of and drive projects across departments to enhance organisational efficiency
- Analyse pre and post branding exercises to determine and improve ATM Performance
- Analyse and approve suitable signage and branding options to maximize revenue
- Vet new site proposals to ensure suitable use of company resources
- Generate weekly and monthly reporting for EXCO & MANCO

REQUIREMENTS:

- Relevant tertiary degree / diploma – Statistics, Business Intelligence
- Minimum 2 years' experience as a Data Analyst
- Experience in supply chain, logistics, ATM or retail industries will be beneficial
- Intermediate Excel including IF statements, Vlookups, Pivot tables, Scenarios, What If analysis, Regression analysis and Charting
